	<i>Acknowledgments</i>	xv
Chapter 1	Review of Basics	1
	The Visio Installation	2
	Different Editions of Microsoft Visio	3
	The User Interface	4
	Selecting a Drawing Category	4
	Menus and Toolbars	6
	Anchor Windows	7
	Task Pane	9
	The ShapeSheet Window	10
	Types of Visio Documents	12
	File Types	13
	File Formats	13
	Document Properties	14
	Types of Visio Pages	15
	Foreground Pages	15
	Background Pages	16
	Markup Pages	17
	Mastering Visio Shapes	18
	Using Master Shapes	18
	Connecting Shapes	23
	Shapes Without a Master	25
	To Scale or Not to Scale	26
	Layering Information	27
	Outputs from Visio	29
Chapter 2	Shape Data and User-Defined Cells	31
	Creating Shape Data	32
	Shape Data Cells	35

	Shape Data Types	36
	Templates and Add-Ons That Create Shape Data Rows Automatically	36
	Reviewing Existing Shape Data	38
	Creating Shape Data Rows Manually	39
	Creating Shape Data Rows Automatically	41
	User-Defined Cells for Data	44
	Using ShapeSheet Formulae	45
	Respecting Themes	47
	Making Read-Only Shape Data Rows	48
	Creating Calculated Values	49
	Creating Intershape References	50
	Shapes to Edit Document Level Variables	51
	Automatically Creating Page Shape Data	52
	Rolling Up Values	52
	Group Shape References	55
	Inter-Page Shape References	56
	Right-Mouse Menu Items from Shape Data Lists	56
Chapter 3	Linking Data to Shapes	61
	Creating Linked Data	62
	Link Data Manually	64
	Column Settings	68
	Filtering Rows	73
	Link Data Automatically	74
	Merging Data from Other Sources	75
	Navigating to/from Linked Data	78
	Refreshing the Data	79
	Creating Data Connections in Code	80
	Linking XML Data	81
	Refreshing XML Data	82
	Link Data Legends	83
	Labeling Shapes from Shape Data	87
	Using Data Graphics to Update Labels	87
	Label Shapes Add-In	90
	Custom Callouts	92
	Manually Editing Associated Text Blocks	93

	Enhancing Shapes with Color, Icons, and Data Bars	95
	Setting Color to Shape Data Values	95
	Predefining Fills in a Database	97
	Space Plan—Color By Value	97
	Data Graphics—Color By Value	98
	Data Graphic Icons Sets	100
	Data Graphic Data Bars	102
Chapter 4	Connecting Items to Each Other	105
	Making Shapes Connectable	106
	2-D Shape Options	107
	1-D Shape Options	112
	Layout and Routing Styles	113
	Spacing out Connections for Clarity	114
	Manual Methods of Connecting Shapes	117
	Drag-and-Drop	117
	AutoConnect	117
	Connector Tool	119
	Connect Shapes	119
	Using Controls to Connect	120
	Automating Connections	121
	Finding Shapes by Shape Data	121
	Connecting Between Found Shapes	125
	Ideas for Enhancing Connectors	135
	Adding Hyperlinks to Connectors	135
	Updating Connection Point Labels	136
	Displaying Duplex Data	136
	Reading Connections	137
	Updating Network Rack Connections	137
	Updating Process Connectors	140
Chapter 5	Summarizing Information with PivotDiagrams	145
	Creating a PivotDiagram	148
	Enhancing the Default Data Graphics	149
	PivotDiagram Options	151
	Breaking Down the PivotDiagram	151
	Applying Shapes	154
	Adding Link Data	156

	Merging Data	157
	Duplicating Data Graphics	159
	PivotDiagram Masters	160
	Pivot Title	160
	Pivot Info (Data Legend)	161
	Pivot Node	161
	Pivot Connector	163
	Pivot Breakdown	163
	Making Selections	165
	Recognizing a Pivot Shape	167
	Getting the Breakdown ID	168
	Selecting Shapes in the Same Group	168
	Selecting Shapes with the Same Breakdown	170
Chapter 6	Database Wizard	173
	The Database Wizard or Link Data?	174
	Linking to a Database Table	175
	Updating a Database Table	179
	Making the Department Linked Master	180
	Creating a Linked Drawing to Update the Database	185
	Inserting Records into a Database	188
	Reviewing Records Deleted from a Database Table	188
	Deleting Records in a Database Table	190
	Refreshing from a View	191
	Customizing the Database Refresh	198
Chapter 7	Using Data Graphics to Reinforce Information	199
	The Default Data Graphic Callouts	200
	Text Callouts	202
	Data Bars	203
	Icon Sets	203
	Creating Custom Callouts	204
	Minimize Use of Group Shapes	205
	Precreate Data Graphic User-Defined Cells	205
	General Editing Techniques	206
	Text Callouts	207
	Data Bar Callouts	210
	Icon Sets Callouts	214

	Distributing Custom Data Graphic Callouts	218
	Changing the Data Graphics Layer Properties	220
	Recognizing Which Data Graphic	221
	Code Listing for ShowDataGraphic	222
	Assigning Data Graphics Automatically	223
	Code Listing for AddDataGraphic	223
	Code Listing for RemoveDataGraphic	224
Chapter 8	Using Smart Tags and Actions	227
	Smart Tags and Actions	228
	Anatomy of a Smart Tag	228
	Anatomy of an Action	229
	Button Faces	229
	A Smart Tags SmartShape	230
	Using Actions to Change Shape Data	235
	Matching Button Faces and Icon Sets	239
	Automating Smart Tags for Icon Sets	239
Chapter 9	Creating Reports	245
	Report Definition Wizard	246
	Excel Report	247
	HTML Report	248
	Visio Shape Report	248
	XML Report	249
	Creating Report Definitions with the Wizard	251
	Enhancing the Reports	256
	Changing Displayed Column Headers	257
	Creating a Variable Embedded Report	258
	Using the Advanced Filters	261
	Adding SelectReportShapes to Embedded Reports	265
	The Built-In Reports	273
Chapter 10	Themes, Backgrounds, Borders, and Titles	277
	Themes	278
	Built-In Color Themes	279
	Built-In Effect Themes	281
	Custom Color Themes	282
	Custom Effect Themes	283

	Using Custom Themes	284
	Displaying the Current Themes	285
	Applying Themes in Code	286
	Backgrounds	287
	Built-In Backgrounds	287
	Custom Backgrounds	289
	Borders and Titles	291
	Built-In Borders and Titles	293
	Custom Borders and Titles	296
	Table of Contents	298
	Code Listing for TableOfContents	301
Chapter 11	Creating Custom Templates, Stencils, and Masters	303
	Stencils and Masters	305
	Master Icons	307
	Preparing the Master Shape	309
	Stencil Names	310
	Stencil File Paths	311
	Templates	312
	Preparing the Template	312
	Template Names	313
	Template File Paths	313
	Custom Dynamic Connector	314
	Creating a Preview Image	315
	Publishing Templates and Stencils	317
	Using File Paths	318
	Creating an Installation	319
Chapter 12	Reviewers' Comments	327
	Annotation Without Comments	328
	Comments and Reviewer's Markup	330
	Behind the Scenes of Markup	333
	Listing Page Reviewers	335
	Printing Reviewer's Markup	337
	The Annotation Marker Master	337
	The AddAnnotationMarkers Code	341
	Reporting on Reviewer's Markup	346

Chapter 13	Preparing for Publication	349
	Printing	350
	Headers and Footers	352
	XML Paper Specification (XPS)	354
	Portable Document Format (PDF)	356
	Microsoft Document Imaging Format (MDI)	358
	Just as an Image	360
	Viewing as Web Pages	360
	Enhancing Hyperlinks	363
	Automating the Export	364
	Code Listing for CreateDocWebPages	367
	Using the Visio Viewer	369
	Sample Windows Forms Wrapper for the Visio Viewer	370
Chapter 14	Using Code to Enhance Functionality	381
	Visual Basic for Applications (VBA)	382
	Code Listing for ToggleLayer Recorded Macro	383
	Editing a Recorded Macro	383
	Running a VBA Subfunction from a Shape	384
	VSTO Add-Ins	388
	Code Listing for ThisAddin.vb	391
	Code Listing for ToggleLayer.vb	393
	Enabling the Shape to Call the Add-In	394
	COM Add-Ins	395
	Add-Ons	396
	Wrapper Applications	396
Chapter 15	Document Management and Security	397
	Restricting Access to Contained Data and Graphics	398
	Removing Sensitive Information	398
	Prevent Idle Edits	400
	SharePoint Integration for Document Control	403
Chapter 16	Scenarios	407
	Floor Layouts	408
	Space Usage	410
	Personnel Locations	414
	Equipment Inventory	421

	Organization Chart	423
	Hierarchical Relationships	423
	Merging Cost Data and Roll-up	425
	IT System Diagrams	426
	Process Diagram	427
	Operational Risk	428
	Work Breakdown Structure	429
Chapter 17	Epilogue	431
	Appendix	435
	Schema Extract	436
	Upsize the Visio Sample Database	436
	Index	439
