## SECTION I | Creating the Image

---

CHAPTER 1	<b>The Power of Photography</b>	<b>3</b>
	Everyone Is a Photographer Now	6
	Some Key Elements to Great Photography	8
	How To: Respecting Human Dignity, Promoting Social Change	14
CHAPTER 2	<b>Equipment</b>	<b>17</b>
	The First-Time Digital Buyer	18
	Camera Types	18
	Whose Advice Should You Take?	22
	Don't Be Intimidated by Going Digital	24
	Regarding the Megapixel "Myth"	25
	Using the Files for Printing	26
	How Do I Know the Camera Is Right for Me?	27
	How To: Buying Your Digital Camera	28
	What to Look for in the Camera Store	28
	The World of Buying Online	29
CHAPTER 3	<b>Developing Technical Proficiency with Your Camera</b>	<b>31</b>
	The Parts of Your Camera	32
	What Are Those Camera Settings All About?	33
	Deciphering the MAPS Settings	37
	Other Shooting Modes	39
	Choosing a File Type	42
	Flash Modes	43
	Working with White Balance	45
	Achieving Sharpness	48
	Contrast and Saturation	49

	Understanding Storage Media	50
	Media Card Tips	53
	The Grand Mantra of Photography: There Are No Rules	55
	How To: Panoramic Photography	56
	Putting the Images Together	59
<b>CHAPTER 4</b>	<b>Understanding Light</b>	<b>61</b>
	The Viewfinder Is Our Canvas and Light Is Our Paint	64
	Available Light	64
	The Golden Hour	65
	Sometimes the Simplest Light Is the Best	70
	Reflectors	73
	Flash, On or Off Camera	76
	Remote Radio Controlled Flash Photography	78
	A Bit of Control from the Menu	79
	Indoor Lighting	80
	Understanding Frontlight, Sidelight, and Backlight	81
	How To: Understanding Light	84
<b>CHAPTER 5</b>	<b>Creative Exposures</b>	<b>89</b>
	Camera Controls	91
	Examples of Shutter Speed Control	92
	Achieving Impact in Your Photography	96
	Adjusting Aperture for Maximum Impact	96
	The Magic of Long Lenses, the Breadth of Wide Lenses	97
	How To: Creative Shutter Control	102
<b>CHAPTER 6</b>	<b>Composition</b>	<b>105</b>
	Rules of Classic Composition	106
	The Rule of Thirds	107
	S-Curves	107
	Rhythm and Repeating Patterns	108
	Using Horizon Lines	108
	Leading Lines	109
	Layering	109
	Scale	110
	Tension	110
	Keep It Simple	112

	Breaking the Rules	112
	What Makes Your Photo Work	114
	How To: Using a Multitude of Tools in Your Composition	116
<i>CHAPTER 7</i>	<b>Telling the Story</b>	<b>119</b>
	The Components of a Story	120
	Set the Scene	120
	The Magic Can Be in the Details	121
	Bring Life into the Story with Portraits	121
	Key Moments Are Essential	124
	Bringing Closure to the Story	125
	Less Can Be More	126
	How To: Creating a Photo Story	128
<i>CHAPTER 8</i>	<b>Photographing People</b>	<b>135</b>
	Is There an Easy Formula to Photographing People?	136
	A Few Lessons on Approaching Subjects	136
	Once You're on Location, Now What?	139
	Anticipate the Decisive Moment of Your Scene	140
	Don't Overstay Your Welcome	142
	Photographing Children	142
	A Few Rules and Tips Regarding Photographing Children	143
	Posing Your Subject	145
	Choosing Equipment to Get the Best Shot	147
	Using Strobe Lighting with the Ambient Light	148
	Environmental Portraits	148
	Photographing People in Action	150
	Lighting a Portrait	150
	How To: Photographing People with the Light	
	You Have—A Sometime Minimalist's Guide	152
<i>CHAPTER 9</i>	<b>Travel and Documentary Photography</b>	<b>155</b>
	Go Light! Minimize Equipment for Travel Photography	156
	Tips for Traveling Light	156
	The Advantage of Digital in Travel Photography	158
	How to Find Photo Possibilities	158
	So You've Arrived, Now What?	162
	Where to Find Inspiration	162
	Learn Something About the Area You're Visiting	163

	Taking Those First Few Travel Shots	163
	How to Deal with People and Your Own Shyness	165
	Photography as a Passport, the Photographer as Ambassador	166
	Documentary Photography	166
	How To: Choosing What's Inside the Camera Bag	170
	Power Management and the Traveling Photographer	172
	Sharing Your Vision	174
<b>CHAPTER 10</b>	<b>Photographing the Natural World</b>	<b>177</b>
	We All Want to Be Ansel Adams	178
	The Components of Outdoor Photography	181
	Creating a Sense of Scale	181
	Finding Your Subject	181
	Creating Interest: Make Your Audience Want More	185
	Creating a Sense of Place	185
	Creating a Sense of Magic	186
	Photographing Wildlife	191
	Animal Encounters Close to Home	192
	Specialized Equipment	194
	Camera Equipment and Such	194
	Various and Sundry Other Gear to Contemplate	195
	The Benefits of Digital in Nature Photography	197
	How To: Creating a Sense of Place in Your Outdoor Photography	198

## **SECTION II** | The Digital Darkroom

---

<b>CHAPTER 11</b>	<b>Welcome to the Digital Darkroom</b>	<b>203</b>
	New Tools, Same Challenges	204
	Building Your Workflow	204
	Stages of a Photography Workflow	205
	The Importance of Shooting Raw	206
	What Is a Raw File?	206
	Why Is Raw Important?	206
	What Tools Do I Need? Building Your Digital Darkroom	208
	Hardware	208
	Software	213

Organizing Your Photo Library	218
Backup Strategies	219
How To: Finding Balance in the Digital Darkroom	222
<b>CHAPTER 12 Getting Started with Lightroom</b>	<b>225</b>
How Lightroom Is Organized	226
Understanding the Catalog System	227
Catalog Management	228
How Many Catalogs Should I Make?	229
Downloading Images from Your Memory Card	229
Creating a Backup Copy	232
File Naming	232
Creating a Metadata Preset	236
Importing Photos from Your Collection	238
Organizing Photos in Lightroom	240
How To: Backing Up Your Lightroom Catalogs	242
<b>CHAPTER 13 Editing Your Photos</b>	<b>245</b>
Why Not Keep Everything?	246
Reviewing Images in Lightroom	246
Applying Color Labels	250
Adding Star Ratings	250
Using Flagging	251
Rating Strategies	252
Performing the First Round of Editing	253
Using Lightroom's Filters	254
Isolating the First Round Selects	256
Performing the Second Edit	257
Comparing Images	257
Quick Develop	262
Adding Metadata	264
Collections	270
Quick Collection	271
Collections	271
Collection Sets	272
Smart Collections	272
How To: The Philosophy of Editing	274

<i>CHAPTER 14</i>	<b>Correcting Tone and Color</b>	<b>277</b>
	Histograms	278
	When in Doubt, Overexpose Slightly	281
	Optimizing Your Photos in Lightroom	283
	Correcting Tone in ACR	284
	Correcting Color in ACR	290
	Correcting White Balance	291
	Advanced Corrections	295
	Adding Contrast	295
	Correcting Specific Colors	299
	Lightroom's Image Manipulation Tools	305
	Context Is King	311
	Correcting Multiple Photos	311
	How To: Making the New Three-Minute Correction	318
<i>CHAPTER 15</i>	<b>Image Refinements</b>	<b>323</b>
	Using the Selective Correction Tools in Adobe Photoshop	324
	Graduated Filter	324
	Applying Multiple Gradients	327
	Adjustment Brush	328
	Introduction to Photoshop	331
	Lightroom and Photoshop, a Symbiotic Relationship	332
	Navigating in Photoshop	333
	Introduction to Layers in Photoshop	335
	Curves	338
	Using Curves to Correct Color in Photoshop	343
	Adjusting Specific Areas in Photoshop	349
	Masks and Selections	349
	From Selections to Masks	350
	Layer Masks 101	350
	How Do Layer Masks Work?	353
	Tips for Working with the Brush Tool	354
	Tips for Working with Masks	356
	How To: Making Selective Adjustments in Lightroom and Photoshop	358
<i>CHAPTER 16</i>	<b>Advanced Image Corrections</b>	<b>361</b>
	Four Rules for the Digital Darkroom	362
	Burning and Dodging	364
	Should You Burn and Dodge in Lightroom or Photoshop?	364

Image Sharpening	367
How Image Sharpening Works	367
When to Sharpen—Early, Late, or Both?	368
Capture Sharpening in Lightroom	369
Creative Sharpening in Lightroom	375
Output Sharpening in Lightroom	375
Sharpening in Photoshop	375
Using Photoshop’s Sharpening Tools for Creative Sharpening	378
Using Photoshop’s Sharpening Tools for Output Sharpening	379
Adobe Photoshop: Essential Skills	380
Noise Reduction	380
Black and White Conversions	382
Sepia Toning	387
Saving Your Master File	390
Multiple Image Photography	391
Workflow Automation	396
Wrap-up	399
How To: Using Complex Masks to Enhance Focus and Attention	400
<b>CHAPTER 17 Output</b>	<b>405</b>
Where Do Pixels Come From?	406
More Is Always Better, Right?	406
Image Size	407
Image Resolution	407
Resizing Images in Lightroom	408
Resizing Images in Photoshop	410
Recommendations	413
Recommended Image Sizes	413
Color Modes/Color Spaces and Color Management	414
Color Modes	414
Color Profiles	418
Color Management	419
Commonly Used Editing Spaces	420
Color Management in Lightroom	422
Color Management in Photoshop	424
Bit Depth	429
File Types	432
How To: Using Lightroom’s Export Module	435

<i>CHAPTER 18</i>	<b>Printing</b>	<b>439</b>
	Monitor Calibration and Profiling	440
	What Is Monitor Calibration?	440
	Monitor Calibration Tools	441
	Monitor Calibration with i1Display 2	442
	Lighting	445
	Discounting the Illuminant	446
	The Art of Printing	448
	Snapshot and Keepsake Prints	448
	Portfolio Prints	449
	Fine-Art Prints	450
	Printing to an Inkjet Printer	452
	The Printing Process	452
	Printing from Lightroom	452
	Printing from Photoshop	459
	Printing to an Inkjet Printer from Photoshop	460
	Advanced Printing Options	463
	Selecting Papers	463
	Printing Black and White	465
	Go Big! Image Upsampling in Photoshop	467
	How To: Printing Fine Art from Photoshop	472
	Zone System Test for Printers	472
<i>CHAPTER 19</i>	<b>Multimedia Explorations</b>	<b>475</b>
	Types of Multimedia Publishing	476
	Preparing Images for the Web	476
	Publishing Web Galleries from Lightroom	480
	Multimedia Explorations	486
	Geotagging	486
	Audio Slideshows	488
	Rich Media Narratives	488
	<b>INDEX</b>	<b>490</b>
