Foreword.....	xi
Acknowledgments .....	xiii
Introduction .....	xv

---

## Part I Installation

<b>1 Introduction to Databases .....</b>	<b>3</b>
The Big Picture.....	3
...And the Little Database that Could .....	6
History and Evolution .....	6
Features .....	7
Applications .....	11
Summary .....	12
<b>2 A Technical Tour of MySQL .....</b>	<b>13</b>
An Overview of MySQL Architecture .....	13
Primary Subsystems .....	13
Support Components .....	16
Subsystem/Component Interaction and Control Flow .....	16
The MySQL Engine .....	17
Connectivity .....	17
SQL .....	17
Data Integrity .....	19
Transactions .....	19
Extensibility .....	22
Symmetric Multiprocessing with MySQL .....	23
Security .....	24
Replication .....	25
Application Programming Interfaces .....	25
Add-On Tools .....	26
Summary .....	26
<b>3 MySQL Installation and Configuration .....</b>	<b>27</b>
Obtaining MySQL .....	27
Choosing Which Version to Install .....	28
Choosing Between Binary and Source Distributions .....	28

Installing and Configuring MySQL .....	30
Installing and Configuring MySQL on UNIX .....	30
Installing and Configuring MySQL on Windows .....	40
Testing MySQL .....	49
Post-Installation Steps .....	51
Summary .....	52

---

## **Part II Usage**

<b>4 SQL Basics .....</b>	<b>55</b>
A Brief History of SQL .....	55
An Overview of SQL .....	56
A (My)SQL Tutorial .....	57
Understanding an RDBMS .....	57
Creating a Database .....	59
Adding Tables .....	60
Adding Records .....	63
Removing and Modifying Records .....	64
Executing Queries .....	65
Summary .....	74
<b>5 MySQL Data Types .....</b>	<b>75</b>
The Need and Rationale for Data Types .....	75
MySQL Data Types .....	76
Numeric Types .....	77
String Types .....	82
Date and Time Types .....	85
Complex Types .....	93
Data Type Selection .....	97
Summary .....	99
<b>6 MySQL Operators .....</b>	<b>101</b>
Arithmetic Operators .....	102
Comparison Operators .....	106
Logical Operators .....	119
Bit Operators .....	122
Summary .....	125
<b>7 MySQL Functions .....</b>	<b>127</b>
Math Functions .....	128
Aggregate Functions .....	133
String Functions .....	137
Date and Time Functions .....	144
Encryption Functions .....	153
Control Flow Functions .....	157
Formatting Functions .....	162
Type Conversion Functions .....	164
System Information Functions .....	166
Summary .....	171

<b>8</b>	<b>Working with Databases and Tables</b> .....	<b>173</b>
	Creating Databases .....	173
	Selecting Databases for Use .....	175
	Deleting Databases .....	176
	Creating Tables .....	176
	Field Types .....	177
	Field Constraints .....	177
	Indexes .....	180
	Primary Keys .....	186
	Foreign Keys .....	187
	Table Types .....	196
	Other Table Modifiers .....	199
	Copying Tables .....	200
	Modifying Tables .....	204
	Deleting Tables .....	209
	Obtaining Information About Databases, Tables, Fields, and Indexes .....	209
	Summary .....	210
<b>9</b>	<b>Working with Data</b> .....	<b>213</b>
	Inserting, Updating, and Deleting Records .....	213
	Inserting Records .....	213
	Updating Records .....	220
	Deleting Records .....	223
	Retrieving Records .....	226
	Retrieving Specific Rows and Columns .....	227
	Using Built-In Functions .....	228
	Aliasing Table and Column Names .....	230
	Limiting Query Results .....	230
	Sorting Query Results .....	231
	Grouping Query Results .....	233
	Using Variables .....	235
	Using Subqueries .....	236
	Controlling <code>SELECT</code> Behavior .....	237
	Copying, Importing, and Exporting Records .....	239
	Copying Records .....	239
	Importing Records .....	241
	Exporting Records .....	244
	Summary .....	247
<b>10</b>	<b>Joins</b> .....	<b>249</b>
	What Is a Join? .....	249
	Types of Joins .....	252
	Cross Joins .....	253
	Inner Joins .....	254
	Outer Joins .....	256
	Self Joins .....	262
	Unions .....	265
	Summary .....	267

- 11 Subqueries** ..... 269
  - What Is a Subquery? ..... 270
  - Types of Subqueries ..... 274
    - Subqueries and the WHERE/HAVING Clause ..... 274
    - Subqueries and the FROM Clause ..... 282
    - Subqueries and Joins ..... 284
    - Subqueries and Other DML Statements ..... 286
  - Summary ..... 290
  
- 12 Transactions** ..... 291
  - What Is a Transaction? ..... 292
    - Transactions and the ACID Properties ..... 294
  - Life Cycle of a Transaction ..... 296
  - Controlling Transactional Behavior ..... 300
    - Automatic Commits ..... 300
    - Transaction Isolation Levels ..... 302
  - Transactions and Performance ..... 307
  - Pseudotransactions with Nontransactional Tables ..... 310
    - Table Locks as a Substitute for Transactions ..... 311
    - Implementing a Pseudotransaction with Table Locks ..... 315
  - Summary ..... 316

---

**Part III Administration**

- 13 Administration and Configuration** ..... 319
  - Database Administration and MySQL ..... 319
    - Uptime ..... 320
    - Data Backup ..... 320
    - Security and Access Control ..... 321
    - Performance Optimization ..... 321
  - Basic Server Administration and Configuration Tasks ..... 322
    - Starting and Stopping the Server ..... 323
    - Checking MySQL Server Status ..... 326
    - Managing MySQL Client Processes ..... 327
    - Altering the Server Configuration ..... 328
    - Troubleshooting with the Error Log ..... 333
  - Summary ..... 334
  
- 14 Security, Access Control, and Privileges** ..... 335
  - The MySQL Grant Tables ..... 335
    - The user Table ..... 336
    - The db and host Tables ..... 340
    - The tables\_priv and columns\_priv Tables ..... 342
  - Granting, Revoking, and Viewing User Privileges ..... 345
    - Using the GRANT and REVOKE Commands ..... 346
    - Using the INSERT, UPDATE, and DELETE Commands ..... 351
    - Viewing Privileges ..... 352
    - Reloading the Grant Tables ..... 352
    - Resetting the Grant Tables ..... 353

Changing User Passwords .....	353
Setting the root Password .....	355
Resetting the root Password .....	355
Summary .....	356
<b>15 Maintenance, Backup, and Recovery .....</b>	<b>357</b>
Maintenance .....	357
Logging .....	357
Checking and Repairing Tables .....	361
Backup and Restore .....	365
Backing Up Databases and Tables .....	365
Restoring Databases and Tables from Backup .....	367
Summary .....	369
<b>16 Performance Optimization .....</b>	<b>371</b>
Indexing .....	371
Query Caching .....	374
Query Analysis .....	376
Optimizing Multi-Table Queries .....	378
Using Temporary Tables .....	380
Optimizing Table Design .....	381
Adjusting Server Settings .....	382
Benchmarking .....	383
Summary .....	388
<b>17 MySQL Replication .....</b>	<b>389</b>
Replication Basics .....	389
The Master-Slave Relationship .....	390
Replication Threads .....	390
Configuring MySQL for Replication .....	391
Managing the Replication Process .....	393
Summary .....	398

---

**Part IV Development**

<b>18 The MySQL APIs .....</b>	<b>401</b>
The MySQL APIs In Context .....	401
Components of the MySQL API .....	402
Language Support .....	403
Selecting an API .....	405
Summary .....	409
<b>19 MySQL and C .....</b>	<b>411</b>
C .....	411
History and Evolution .....	411
Installation .....	412
MySQL and C .....	412
Connection Management .....	417
Query Execution .....	419
Result Set Processing .....	421

Error Handling .....	429
Ancillary Functions .....	431
Real-World Usage .....	433
The Interactive SQL Client .....	433
The Expense Tracker .....	437
Summary .....	443
<b>20 MySQL and Perl .....</b>	<b>445</b>
Perl .....	445
History and Evolution .....	445
Installation .....	446
MySQL and the Perl DBI .....	447
Connection Management .....	451
Query Execution .....	454
Result Set Processing .....	457
Error Handling .....	461
Ancillary Functions .....	465
A Real-World Example .....	465
Designing the Database .....	466
Building an Article Index .....	468
Retrieving Article Contents .....	470
Adding Comments .....	473
Building a Threaded Comment Index .....	477
Viewing Comments .....	481
Summary .....	484
<b>21 MySQL and PHP .....</b>	<b>485</b>
PHP: History and Evolution .....	485
Installation .....	486
MySQL and PHP .....	488
Connection Management .....	493
Query Execution .....	494
Result Set Processing .....	498
Error Handling .....	505
Ancillary Functions .....	505
A Real-World Example .....	508
Designing the Database .....	509
Retrieving Data .....	510
Adding Data .....	512
Removing Data .....	516
Summary .....	520
<b>Index .....</b>	<b>521</b>
